

AGILITY
SWEDEN

FCI 2025
WORLD CHAMPIONSHIP
KALMAR 17th - 21st SEP 2025

Welcome to FCI AGILITY WORLD CHAMPIONSHIP

🇸🇪 KALMAR, SWEDEN
17-21 SEPTEMBER 2025

Share your agilitypassion with us!

Judges

My name is Fanny Gott and I've been involved in agility since the mid-nineties. I started my dog training career doing mostly obedience, but have competed primarily in agility for almost 20 years. I have competed in grade 3 with large, medium, and small dogs - border collies, working cocker spaniels, and a basset fauve de Bretagne.

As a competitor, I won the Swedish Championship in 2023 and have been on the Swedish team multiple times. I work as a professional dog trainer, mostly focused on agility. I have been judging since 2018 and I enjoy designing fun and flowy courses that challenge dog training skills. Judging AWC 2025 in Sweden is a huge honor and I look forward to making it the best agility party ever.

My name is Joakim Tangfelt and I am 31 years old. My parents have always been active in different ways in agility. With a mother competing and a father judging you can basically say I was born into the sport.

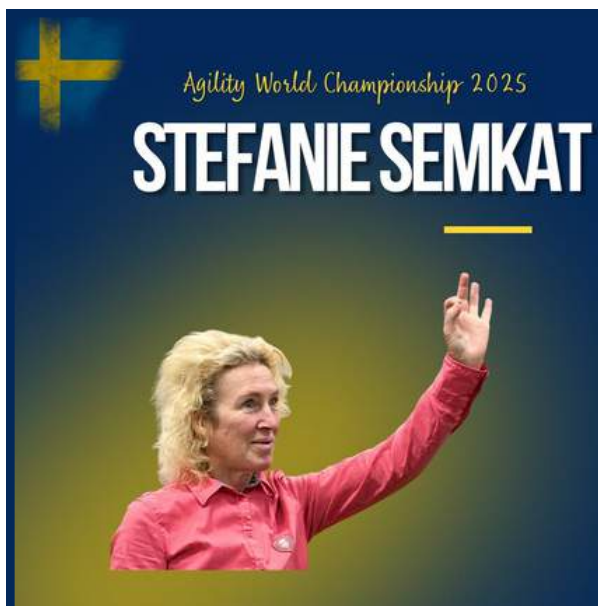

2007 I started competing and it all really took off when I got my poodle Amiga. With her I have been competing at several international championships achieving good results. Today we have three dogs in the family, an old Border collie who is now retired and two dogs (a border collie and a working cocker) who mainly compete with my wife.

2014 I became a judge. The big driving force for me has always been the course design, then the judging has become a bonus. A wonderful bonus, with all the countries and people I have met out in Europe and the world.

I have always had the goal of one day refereeing AWC, but to be able to judge AWC at home is something I could never have dreamed of. I will really enjoy it and I hope that others will do the same regardless of whether you participate or is audience.

Judges

I started agility in 1997 in South Germany and competed first with a Brittany Spaniel.

After competing several years I was asked by a friend if I want to become judge and this is what I do now since 2003.

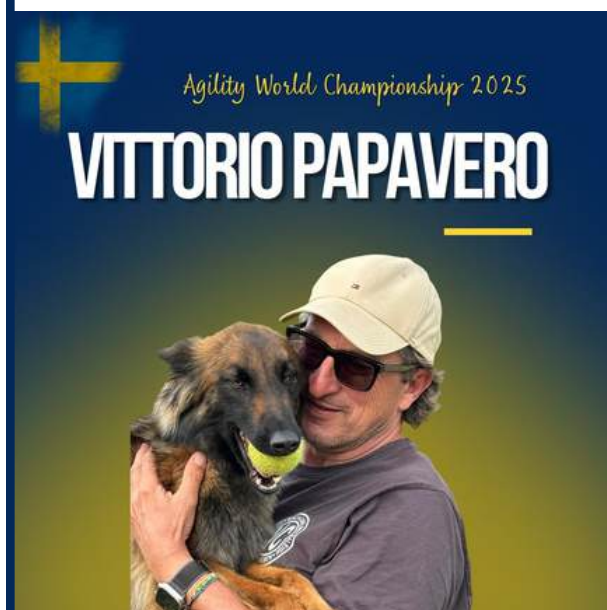

As a competitor I competed with different breeds in all height categories over the years, with several dogs I took part at the German Championship.

As a judge I judged in almost every European country, also national championships and tryouts. But I also had the honour to judge in Japan, Singapore, Thailand, the USA and Mexico.

At the moment we have 3 Border Collies at home, one competing in class 3 and the other two in class 1.

One of my judging highlights was to judge the EO 2023 in Denmark. I am looking forward to the AWC in Kalmar which will be for sure another very special highlight in my judging career.

Best regards
Stefanie

My name is Vittorio Papavero, living in Bracciano, near Rome with my family, where our lives are completely about dogs. We run two dog activity centers, a kennel where we breed Shetland Sheepdog and working line Tervuren and we also organise several agility events per year, from small local competitions to big international events like Rome Agility Festival and ProseCup in Treviso.

My dog adventure started in 1991 and a year later I made my debut in agility with my Dobermann "Sheeba". With Sheeba I was part of the Italian team in 1993 (Linz Austria) and we became Vice World Champion as Italian Team at the very first AWC ever, held in Switzerland in 1996.

I have been part of the Italian team over ten times, with 5 dogs of 4 different breeds: Dobermann, 2 Border Collies, Cocker Spaniel and a Tervuren.

With this Tervuren we won the FMBB World Championship in 2007.

From 2015 to 2017 I proudly was chosen to be the team leader for EO and AWC. In 2015 I was also team leader of the junior national team.

Since the very beginning I have a great passion for designing and building agility courses, but it wasn't until 2015 that I decided to become a judge.

Of course the most emotionally precious invitation so far was to judge FMBB 2022 in Karpenessi, Greece. An event to which I have deep rooted ties being a former World Champion and a breeder of Tervuren.

Another event that I hold dear and that enjoyed a lot is the Nordic Championship in Denmark. An exciting and adrenaline-filled event.

I don't normally post courses very often but from now on I'll try to do it on Fb agilitycourses or on my page Vittorio Papavero.

For the first time ever – VAR at AWC 2025!

We're excited to announce that VAR (Video Assistant Referee) will be used at all contact zones during the Agility World Championship 2025!

This is a major step forward for our sport – bringing more accuracy, fairness, and support to judges on the world's biggest stage. The system has been developed and refined over several years, based on real feedback from judges and experience from numerous international events.

The VAR equipment will be provided by VAR - Video assistant referee Agirace from the Czech Republic – a team truly passionate about agility and innovation. Their system has been tested at large international competitions, national championships and team try-outs, and is built in close collaboration with judges to ensure usability and precision.

- More fairness
- More precision
- More support for judges

We look forward to seeing this new tool in action at AWC 2025!

A big thanks to FCI Agility for embracing innovation – and to everyone helping bring this future-oriented step to life.

Official AWC 2025 Toys – limited edition

Meet the five stars of The Champions Collection – a playful, high-quality toy series designed for reward-focused dogs and their biggest fans. Whether you're training for the world stage or just celebrating your everyday champion, these toys bring performance, style, and that unmistakable AWC feeling

Sweden fun facts!

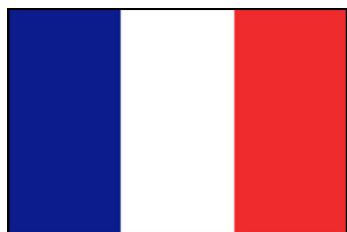

Meatballs & Lingonberries

A classic Swedish dish
(and yes, IKEA made it world-famous)

Swedish fika

An essential part of Swedish
daily life!

A daily ritual of coffee break with
something sweet, but more
importantly, it's about pausing and
enjoying time together.

Kalmar Castle

Guided tour - dogs are welcome!

Kalmar Castle was built in the Middle Ages. It has seen sieges, royal weddings, court intrigues, knight tourneys and cannonballs. Kalmar Castle has played an important role as both a defensive fortress and a palace.

The guided outdoor tour will be offered in conjunction with the Agility World Championships.

More information:
www.kalmarslott.se

Tuesday, September 16 - Saturday, September 20

Daily tours (50-60 minutes):

English guide at 10:30 (not on Friday)

Swedish guide at 14:30

Please note: On Friday, September 19, the English tour will not be available due to guide unavailability.

ULL4PETS

**ULL4PETS dog beds in
llama / camel wool are the most
natural thing for your four-legged
friend!**

- Moisture & dirt repellent
- No wear & tear on the dog's fur
- Insulates against heat & cold
- Calming effect

Sweden fun facts!

"Lagom"

"Not too much, not too little" - the idea of balance and moderation in one word.

Shoes Off

When entering a Swedish home (and even schools for younger children), you're expected to leave your shoes in the hallway - so don't be surprised if you see a mountain of sneakers by the door.

SAFE - DURABLE - INNOVATIVE AGILITY PRODUCTS MADE IN SWEDEN

I'm Sandra Molander, founder of SafeStrideSolutions - a brand born from a true passion for agility and a background in product design.

As an active competitor and a Border Collie owner, I understand the need for equipment that is not only safe but also truly functional.

Every product is designed to solve real challenges on the course, tested in action, built to last, and always created with the dog's safety and performance at heart.

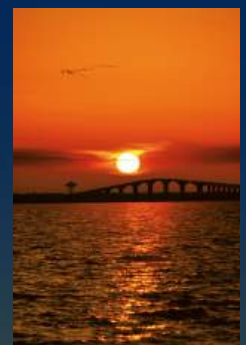

Let's connect at AWC 2025 in Kalmar - I'd love to chat and show you my products!

Sweden fun facts!

Midnight Sun

In northern Sweden, the sun never sets for weeks in summer.

Ice Hotel

Every winter, in Jukkasjärvi, a hotel is built entirely out of snow and ice – and melts away again in spring.

Sweden fun facts!

Öland Bridge

The bridge connecting Kalmar to the island of Öland was inaugurated in 1972. With 6km long it was Europe's longest bridge until 1998 - and still feels pretty endless when you drive across it.

Left-Side Traffic

On September 3, 1967, Sweden switched from driving on the left to the right side - All vehicles had to stop at 04:50, then carefully change to the right-hand side of the road before being allowed to proceed at 05:00! Yes, really!
Can you imagine the chaos?
